

MDAC 2.7 SP1 Vulnerabilities Patch: Observations and Noted Limitations

1. MDAC 2.7 SP1 Vulnerabilities Patch installations for BCM 3.5 Build 2.3a, BCM 3.5 2.3b, BCM 3.0.1 Build 7, and BCM 2.5 FP1 MR 1.1 systems by using the Patch Update Wizard is supported for all installation permutations.
2. BCM 2.5 FP1 MR1.1, BCM3.0.1 Build 7, BCM 3.5 Build 2.3b systems previously patched with the MDAC 2.6 Vulnerabilities Patch released January 26th 2004, where an NCM import/export operation has been executed on the system prior to installation of the MDAC 2.7 SP1 Vulnerabilities Patch cannot use NCM to install the MDAC 2.7 SP1 Vulnerabilities Patch.
Work around: Install the MDAC 2.7 SP1 Vulnerabilities Patch by downloading the executable onto a PC client and execute the Patch Update Wizard to install the patch to the target BCM. (Normal patch process)
After the successful MDAC 2.7 SP1 Patch installation, NCM can now be used to import/export BCM configuration data.
3. The MDAC 2.7 SP1 can be applied via NCM or by normal patch process, **IF** an NCM import/export operation has not been executed on BCM 2.5 FP1 MR1.1, BCM 3.0.1 Build 7, BCM 3.5 Build 2.3b systems that were previously patched with the MDAC 2.6 Vulnerabilities Patch released January 26th 2004.
4. BCM 3.5 Build 2.3a systems upgraded from BCM 3.0.1 Build 7 where the MDAC 2.6 Vulnerabilities Patch released January 26th 2004 has been installed cannot use NCM to install the MDAC 2.7 SP1 Vulnerabilities Patch.
Work around: Install the MDAC 2.7 SP1 Vulnerabilities Patch by downloading the executable onto a PC client and execute the Patch Update Wizard to install the patch to the target BCM. (Normal patch process)
After the successful MDAC 2.7 SP1 Patch installation, NCM can now be used to import/export BCM configuration data.
5. BCM 2.5 FP1 MR1.1 and BCM 3.0.1 systems that are patched with the MDAC 2.7 SP1 Vulnerabilities Patch require a reboot before Call Pilot Manager can be accessed from Unified Manager.

Contact regular technical support for any other technical issues related to this document.
