**Date:** 21 October 2004

# New CallPilot Mini Power Supply and Cords

## Introduction

Effective September 20, 2004, Nortel Networks\* replaced the power supply and associated power cord shipped with the NTHY06BA CallPilot Mini Base Package.

The improved power supply (included in the NTHY06BA Base Hardware Package) and power cord can also now be ordered as merchandise for spare parts replacement inventory.

Original	Replaced by	Description
NTAB9824	NTAB9507	Base Hardware package containing the power supply
A0838158	A0517863	Power Supply. Note: The A0838158 power supply used a three-prong power cord. The A0517863 uses a two prong power cord.

## Ordering Guidelines and Procedures

### Meridian Configurator

Quotes configured by Meridian Configurator prior to October 4, 2004 will need to be manually changed. Please reference table below for changes:

Original Quoted Part	Change To	Description
NTHY06BA	No change required	CallPilot Mini Base Package
A0645811 *	A0537033	Power Cord (North America)
A0838158 *	A0517863	Power Supply
NTAB9824 *	NTAB9507	CallPilot Mini Base Hardware Package

**\* Note:** These parts will be removed from the CallPilot product offering however, will remain orderable for other products. Please ensure the quotes are modified as above prior to submission.

Following the October 4, 2004 Change control, these changes will be automatic within the tool.

### NNEC 5.1 EMEA and APAC:
