

BCM Business Case

Use the interactive business case tool to determine how VoIP can deliver added value to your customer. It can establish potential cost savings and payback by calculating the financial viability of your customer's investment.

To use this tool, click on the link below:

www.nortelnetworks.com/voip_tool

If you are not a registered Nortel Networks user, please click on the link above and click on Register in the left navigation bar to access the business case tool.

Please note: some hardware items and features may not be available in your region. Contact your Nortel Networks representative for further clarification.
